

**Yujie Zhang**

She received the M.S. degree in Applied Mathematics and Ph.D. degree in Institute of Geophysics and Geomatics from China University of Geosciences, China, in 2006 and 2012, respectively. She is currently a lecturer at the China University of Geosciences, China. Her research interests include blind signal processing, time-frequency analysis and their applications.

**Hongwei Li**

He received the Ph.D. degree in institute of mathematical sciences from Beijing University, China, in 1996. He has been a professor at the School of Mathematics and Physics, China University of Geosciences, Wuhan, China. His research interests include statistical signal processing, blind signal processing, multidimensional signal processing, and time series analysis.
